

13th International BUILDAIR Symposium

Airtight Buildings, Thermography and Ventilation Systems in Practice

May 17, 2023

There are many good reasons ...

Ladies and Gentlemen, dear friends,

... to come to the 13th International BUILDAIR Symposium in Hanover at the beginning of June, above all:

- 1. Communicate directly with each other:** For several years we could only communicate with each other via video call, now we can finally get together again without any worries and talk to each other face to face – and at the same time get a lot of important information that would not have reached us online, in the home office.
- 2. Take the latest know-how with you:** The [presentations](#) at the BUILDAIR Symposium 2023 offer you concentrated, applicable know-how that you can use immediately in your everyday work – practical experience, new insights, new process variants and combinations.
- 3. Have inspiring conversations:** You can talk to participants from many countries and find out which issues are the focus elsewhere – and take away suggestions for your work on the one hand and agree on joint projects on the other.

- 4. Getting to know colleagues or seeing them again:** "Basically, it is always the connections with people that give life its value," as Wilhelm von Humboldt put it – the symposium and its evening event provide the perfect setting for this.
- 5. Find out about the new and the tried and tested:** During the breaks you have plenty of time to find out more about the company's portfolio from the representatives in the accompanying [exhibition](#) and to ask all your questions – without obligation and without any additional effort.
- 6. Have it updated at low cost:** The participation fee for the two-day, simultaneously translated symposium will be at a very low level in 2023 as well – you can hardly find cheaper independent training!

Welcome to Hanover – you can [register](#) until May 26th. We look forward to an interesting meeting and many good discussions with you!

Kind regards,

Sabine Schneider
on behalf of the organizing team

The conference at a glance

Organizer:	
Dates:	June 2/3, 2023
Conference venue:	Hannover Congress Centrum (HCC) Theodor-Heuss-Platz 1-3 30175 Hannover Germany
